Take5people
NOW YOU CAN

Managing Your Regional Payroll with Ease

Regional HR services
Maintain centralized payroll control
Using Take5 People's cross-border solutions for Asia to implement consistent policies and systems in the countries where the business units are located.

Asia multi-country or region coverage
Multi-currency and multi-language support
Includes complex business scenarios of cross regional enterprises. Take5's multi-tenancy support allows the system to be set-up with separate companies for each regional operation or one company for all regional operations or a combination depending on requirements.

Configure and Not Code
One Source Code base for all customers across all countries and industries
Designed to support the configuration and maintenance of complex compensation definitions without source code changes. This includes country or industry specific payroll groups, payroll periods, payment cycles, operational and statutory reports and many other functions.

Payroll worry-free
Powerful compensation calculation engine
Supports retroactive payroll, comprehensive annual/sick leave, overtime policies and customised compensation and benefits calculation methods.
Risk Mitigation
Compliance management
Satisfies statutory compliance requirements of multiple countries and regions in Asia. Take5 People's country specific templates provide payroll, taxation, social security and all statutory reports based on local regulations.

Mobile management
Supporting remote and mobile offices
Realizes easy navigation on organizational structure, employee profile and pay slip, and streamlines many of the HR processes for areas such as onboarding, clocking in/out, leave and other applications and approval, claim processing, time sheet entry, shift assignment and a lot more.

Quality customer experience
Local team serving local customers
Excellent local expertise provides professional and timely technical and after-sales support to customers cross Asia.
